CONTENTS OF VOLUME

Volume 12 Number 1 January–February 1995

Improved stability of w/o/w multiple emulsions by addition of hydrophilic colloid components in the aqueous phases
A. Vaziri and B. Warburton 1

A new method for the synthesis of smooth, round, hydrophilic protein microspheres using low concentrations of polymeric dispersing agents
M. S. Latha and A. Jayakrishnan 7

Poloxamer-coated three-ply-walled microcapsules for controlled delivery of diclofenac sodium
S. Bhatnagar, S. Nakhare and S. P. Vyas 13

An experimental investigation of enzyme release from poly(vinyl alcohol) crosslinked microspheres
A. R. Bachtsi and C. Kiparissides 23

Polymer-coated liposomes: improved liposome stability and release of cytosine arabinoside (Ara-C)
S. Sehgal and J. A. Rogers 37

Collagen microparticles: preparation and properties
B. Rössler, J. Kreuter and D. Scherer 49

Biodegradable microcapsules prepared by a w/o/w technique: effects of shear force to make a primary w/o emulsion on their morphology and protein release
H. K. Sah, R. Toddywala and Y. W. Chien 59

Effect of varying drug loading on particle size distribution and drug release kinetics of verapamil hydrochloride microspheres prepared with cellulose esters
S. B. Bhardwaj, A. J. Shukla and C. C. Collins 71

Quality improvement of spray-dried, protein-loaded D,L-PLA microspheres by appropriate polymer solvent selection
B. Gander, E. Wehrli, R. Alder and H. P. Merkle 83

Patent Briefing 99

Literature Alerts 102

Calendar 115

Volume 12 Number 2 March–April 1995

Liposome-encapsulated alginate: controlled hydrogel particle formation and release
M. Monshipouri and A. S. Rudolph 117

An approach to prepare microparticles of uniform size
N. Muramatsu and T. Kondo 129

Preparation of ethylcellulose microcapsules containing theophylline by using emulsion non-solvent addition method
H. Chen, J.-C. Wu and H.-Y. Chen 137

Liposomally encapsulated diclofenac for sonophoresis induced systemic delivery
S. P. Vyas, R. Singh and R. K. Asati 149

Properties of multiphase microspheres of poly(D,L-lactic-co-glycolic acid) prepared by a potentiometric dispersion technique
P. B. O'Donnell, M. Iwata and J. W. McGinity 155

Thermal analyser and micro FT-IR/DSC system used to determine the protective ability of microencapsulated squid oil
S.-Y. Lin, L. S. Hwang and C.-C. Lin 165

Some factors affecting the size of nylon 6–10 microcapsules prepared by interfacial polymerization in a high-voltage electric field
B. R. Etuk, L. R. Weatherley and K. R. Murray 173

Properties and drug release behaviour of poly(3-hydroxybutyric acid) and various poly(3-hydroxybutyrate-hydroxyvalerate) copolymer microcapsules
İ Gürsel and V. Hasırcı 185

An *in vitro* release kinetic examination and comparative evaluation between submicron emulsion and polylactic acid nanocapsules of clofibride
N. S. Santos Magalhaes, H. Fessi, F. Puisieux, S. Benita and M. Seiller 195

Patent Briefing 207

Literature Alerts 212

Erratum 226

Calendar 227

Volume 12 Number 3 May–June 1995

Factors affecting microencapsulation of drugs in liposomes
S. B. Kulkarni, G. V. Betageri and M. Singh 229

Controlled release of transforming growth factor-β from lipid-based microcylinders
B. J. Spargo, R. O. Cliff, F. M. Rollwagen and A. S. Rudolph 247

Emulsification preparation of calcium alginate beads in the presence of sequesterant
M. Monshipouri and R. R. Price 255

Permeability of lipid-coated polymer capsule membranes to solutes: effects of temperature and chemical structure of solutes
N. Totomi, K. Makino, S. Inoue and T. Kondo 263

Gradation of microcapsule wall porosity by deposition of polymer mixtures (Eudragit *RL* and Eudragit *RS*). Phase separation of polymer mixtures and effects of external media and conditions on release
M. Donbrow, A. Hoffman and S. Benita 273

Physico-chemical evaluation of acetylsalicylic acid-Eudragit® RS100 microspheres prepared using a solvent-partition method
M. G. Vachon and J. G. Nairn 287

Neutrase entrapment in stable multilamellar and large unilamellar vesicles for the acceleration of cheese ripening
M. Fresta, E. Wehrli and G. Puglisi 307

Patent Briefing 327

Literature Alerts 331

Calendar 341

Volume 12 Number 4 July–August 1995

Review: Microparticles with neuroactive agents
J. Filipović-Grčic, D. Maysinger and I. Jalšenjak 343

Preparation and evaluation of proliposomes containing propranolol hydrochloride
Byung-Nak Ahn, Shin-Keun Kim and Chang-Koo Shim 363

Distribution of liposomes containing mannobiose esters of fatty acid in rats
K. Yachi, H. Kikuchi, H. Yamauchi, S. Hirota and M. Tomikawa 377

Optimization of microencapsulation of acrylic adhesives
F. Giroud, J. M. Pernot, H. Brun and B. Pouyet 389

Preparation and characterization of niosomes containing rifampicin for lung targeting
C. P. Jain and S. P. Vyas 401

Prolonged release of rifampicin from multiple W/O/W emulsion systems
S. Nakhare and S. P. Vyas 409

Deviation of the ratio of drugs in a two-component mixture encapsulated in cellulose phthalate microspheres
L. S. C. Wan and W. K. Chui 417

Effect of operation variables and monomers on the properties of polyamide microcapsules
Mingzu Zhang, Peihong Ni and Nianxi Yan 425

Lymphatic delivery and pharmacokinetics of methotrexate after intramuscular injection of differently charged liposome-entrapped methotrexate to rats
C.-K. Kim and J. H. Han 437

Patent Briefing 447

Literature Alerts 451

Calendar 467

Volume 12 Number 5 September–October 1995

Characterization, *in vitro* and *in vivo* studies on primaquine diphosphate liposomes
B. Arica, A. Y. Özer, M. T. Ercan and A. A. Hincal 469

Enhanced *in vivo* performance of liposomal-indomethacin derived from effervescent granule based proliposomes
O. P. Katare, S. P. Vyas and V. K. Dixit 487

Microencapsulation of lobster carotenoids within poly(vinyl alcohol) and poly(D,L-lactic acid) membranes
Z. M. Sun, D. Poncelet, J. Conway and R. J. Neufeld 495

Coating charcoal with polyacrylate–polymethacrylate copolymer for haemoperfusion III: The effect of the coat thickness on the adsorption capacity of the coated charcoal and its adsorptivity to small and middle size molecules
S. El-Kheshen, H. Zia, A. Badawi, T. E. Needham and L. A. Luzzi 505

Control of mosquito larvae by encapsulated pathogen *Bacillus thuringiensis var. israelensis*
Y. Murat Elçin 515

Physical stability of different liposome compositions obtained by extrusion method
X. Armengol and J. Estelrich 525

Microencapsulation of O/W emulsions by formation of a protein-surfactant insoluble complex
S. Magdassi and Y. Vinetsky 537

Development of digoxin dry elixir as a novel dosage form using a spray-drying technique
C.-K. Kim and Y.-S. Yoon 547

The microencapsulation of protein using a novel ternary blend based on poly(ε-caprolactone)
H. Huatan, J. H. Collett and D. Attwood 557

Patent Briefing 569

Literature Alerts 573

Calendar 589

Volume 12 Number 6 November–December 1995

Influence of pH adjustment on microcapsules obtained from complex coacervation of gelatin and acacia
R. Daniels and E. M. Mittermaier 591

Preparation and *in vitro* dissolution of salbutamol sulphate microcapsules and tabletted microcapsules
Y. Yazan, M. Demirel and E. Güler 601

Multiple emulsion-based systems carrying insulin: development and characterization
S. Singh, R. Singh and S. P. Vyas 609

Evaluation of an aliphatic polyurethane as a microsphere matrix for sustained theophylline delivery
C. S. Subhaga, K. G. Ravi, M. C. Sunny and A. Jayakrishnan 617

Production of water-containing polymer microcapsules by the complex emulsion/solvent evaporation technique. Effect of process variables on the microcapsule size distribution
A. Kentepozidou and C. Kiparissides 627

Study of a microencapsulation process of a virucide agent by a solvent evaporation technique
J. Legrand, L. Brujes, G. Garnelle and P. Phalip 639

Preparation and *in-vitro* evaluation of sustained-release metoclopramide hydrochloride microspheres
S. H. Khidr, E. M. Niazy and Y. M. El-Sayed 651

Influence of membrane components on the stability and drug release properties of reverse phase evaporation vesicles (REVs): light sensitive all-*trans* retinal, negatively charged phospholipid dicetylphosphate and cholesterol
M. Gürsel and V. Hasirci 661
